XXXIV CONGRESS OF THE ITALIAN SOCIETY FOR VASCULAR INVESTIGATION

"A TRUE VASCULAR FORUM WITHOUT BORDERS!"

INVITATION FROM THE PRESIDENT OF THE CONGRESS

Dear Friends,

it is a great pleasure to announce the XXIX WORLD CONGRESS OF THE INTERNATIONAL UNION OF ANGIOLOGY.

As you have been recently informed, due to COVID-19 pandemia around the world, we were forced to take the decision to cancel the IUA World Congress 2020 in Rome.

Therefore, in order to keep the benefits of the work we have been doing for more than two years, we are willing and would like to organize a "virtual congress on demand" with the collection of the presentations that were supposed to be presented at the congress in Rome.

We invite you to support this important initiative and we count on your cooperation.

The scientific programme include multidisciplinary symposia, plenary lectures, consensus meetings and free paper and poster sessions on the major topics and advances in the fields of angiology, vascular and cardiovascular medicine and surgery, phlebology, lymphology, thrombo-embolic disease and interventional techniques. An outstanding Faculty has been assembled to provide the most up-to-date best practice guidelines on vascular topics.

I would like to invite you join us in this project and to actively contribute by providing examples of your scientific work to the Meeting. You will be able to meet many specialists from countries around the world and discuss clinical cases, new research results and major advances in the fields of angiology, phlebology and of vascular medicine and surgery even if in the virtual mode.

Free paper and poster sessions have been organized and dedicated IUA Prizes sessions for young researchers ("Evi Kalodiki Award") are part of the programme.

I look forward to seeing you virtually.

Professor Pier Luigi Antignani
President of the Congress
President elect of the IUA

INVITATION FROM THE PRESIDENT OF THE IUA

Dear Colleagues,

It is a very special pleasure for me to invite you all to participate in the forthcoming 29th World Congress of the International Union of Angiology to be held in 2020 in virtual mode.

World Congress of the International Union of Angiology offers a great global platform being described as "Vascular without borders". Experts from different specialties including vascular surgery, vascular intervention, vascular medicine, phlebology, cardiology and sonography etc. will meet to share their latest research findings and expertise in clinical treatment and care, permitting the communication and discussion on all kinds of vascular diseases.

The Organizing Committee, led by Professor Pier Luigi Antignani, will prepare all the best ingredients to make a great scientific meeting as well as a unique cultural and human experience.

I believe the congress will be a successful one and the participants would gain valuable information and insights in the vascular field.

I sincerely invite you to attend this congress.

A handwritten signature in black ink, reading "Gu Yongquan", is positioned above the printed name of the president.

Professor Yongquan Gu
President of the International Union of Angiology

UPREGULATION OF CORTISOL LEVELS IN PATIENTS UNDERGOING TOTAL JOINT ARTHROPLASTY

R. Khanna*, H. Slovacek, S. Haddad, F. Siddiqui, D. Hoppensteadt, J. Liles, J. Fareed, W. Hopkinson

USP POTENCY ADJUSTED BOVINE MUCOSAL HEPARINS ARE COMPARABLE TO PORCINE MUCOSAL HEPARIN AND MAY BE INTERCHANGEABLE FOR ANTICOAGULATION

A.Kouta*, W. Jeske, D. Hoppensteadt, M. Iacobelli, O. Iqbal, P. Bacher, J. Fareed

DIFFERENTIAL NEUTRALIZATION OF APIXABAN, BETRIXABAN, EDOXABAN, AND RIVAROXABAN BY ANDEXANET ALFA AS MEASURED BY WHOLE BLOOD THROMBOELASTOGRAPHIC ANALYSIS

S. Mehrotra*, D. Hoppensteadt, W. Jeske, D. Hoppensteadt, O. Iqbal, A. Tafur, B. Lewis, J. Fareed

A RUPTURED ANEURYSM OF THE SUPERFICIAL FEMORAL ARTERY: A CASE REPORT

M. M. Popovic*, L. Milic, A. Marinkovic, N. Ilijevski

CASE OF RECURRENT DVT DUE TO PROTEIN C DEFICIENCY IN YOUNG ADULT

T. Mukhuradze*, M. Bokuchava

POSTERS

COMBINATION OF ROTATIONAL THROMBECTOMY, TEMPORALLY RETRIEVABLE VENA CAVA FILTER AND VENOUS STENT PLACEMENT FOR TREATMENT OF ACUTE DVT

T. Mukhuradze*, V. Kipiani

ENDOVASCULAR TECHNIQUES USED WITHOUT WITH A MINIMUM VOLUME OF CONTRAST

P. Myrcha*

DUNBAR SYNDROME: DIAGNOSIS AND TREATMENT

Y. Orel*, O. Slabby, T. Vykhuyk, M. Orel, Y. Khorkavyi

VITAMIN D DEFICIENCY AND RENIN ANGIOTENSIN SYSTEM DYSREGULATION IN ATRIAL FIBRILLATION

D. Patel*, A. Abrenica, D. Hoppensteadt, J. Fareed

COMPRESSION THERAPY DURING HEMODIALYSIS TO IMPROVE QUALITY OF LIFE IN END STAGE RENAL DISEASE AND PERIPHERAL ARTERY DISEASE

L. Paz Rios*, J. Fratti, F. De Stefano, E. Bontekoe, D. Hoppensteadt, J. Fareed, A. Tafur

AXILLARY ARTERY PSEUDOANEURYSM AFTER KIRSCHNER NEEDLE PLACEMENT IN A SHOULDER DISLOCATION WITH CONCOMITANT FRACTURE

R. Vázquez Pérez*, L. A. Suárez González, F. Álvarez Marcos, R. Fernández-Samos Gutiérrez, I. Rodríguez López, C. Nogal Arias, A. Zorita Calvo

ANALYSIS OF MORBIDITY OF THE PATHOLOGY OF LOWER LIMB ARTERIES IN THE SVERDLOVSK REGION

V. Pogosian*, V. Kazantsev, D. Mikhailova

LOW-VOLUME, SHORT-DURATION HIGH INTENSITY INTERVAL TRAINING AS A TREATMENT OPTION FOR INTERMITTENT CLAUDICATION: EARLY EXPERIENCE FROM A SINGLE UK CENTRE

S. Pymer*, J. Palmer, S. Ibeggazene, P. Cai, A. Harwood, L. Ingle, S. Carroll, T. Wallace, G. Smith, I. Chetter

REVERSAL OF THE THROMBIN GENERATION INHIBITORY EFFECT OF APIXABAN, BETRIXABAN, EDOXABAN AND RIVAROXABAN BY ANDEXANET ALPHA MAY BE ASSOCIATED WITH INCREASED THROMBOGENESIS

F. Siddiqui*, W. Jeske, A. Tafur, A. Kouta, D. Hoppensteadt, E. Ramacciotti, J. Fareed, B. Lewis

DISCORDANCE BETWEEN THE NEUTRALIZATION PROFILE OF APIXABAN, BETRIXABAN, EDOXABAN AND RIVAROXABAN IN THE CLOTTING ASSAYS AND ANTI-XA MEASUREMENTS

F. Siddiqui*, A. Tafur, D. Hoppensteadt, W. Jeske, B. Lewis, J. Fareed

POSTERS

EXPLORING THE SELF-SIMILARITY OF PHOTOPLETHYSMOGRAPHY SIGNALS

H. Silva*, H. Ferreira, L. Monteiro Rodrigues

IS TISSUE VIABILITY IMAGING (TIVI®) ABLE TO QUANTIFY VASOMOTION?

H. Silva*, R. Francisco, L. Monteiro Rodrigues

CHALLENGING THE CUTANEOUS VASCULAR REACTIVITY WITH AN ORAL GLUCOSE LOAD

H. Silva*, J. Šorli, H. Lenas

**VASCULAR TOPOGRAPHY BY MRI (MAGNETIC RESONANCE IMAGING)**

H. Silva*, R. Francisco, H. Ferreira, L. Monteiro Rodrigues

NITRIC OXIDE METABOLITES LEVEL IS ASSOCIATED WITH INTENSITY OF DISEASE PROGRESSION IN PATIENTS WITH PERIPHERAL ATHEROSCLEROSIS

A. Suchkov, R. Kalinin, N. Mzhavanadze*, A. Pshennikov, A. Chobanian

ASSESSMENT OF COAGULATION PARAMETERS AS POTENTIAL MARKERS FOR VENOUS THROMBOEMBOLISM IN PATIENTS WITH PERMANENT PACEMAKERS

A. Suchkov*, R. Kalinin, N. Mzhavanadze, V. Povarov

THE INTEGRATED ROLE OF C-REACTIVE PROTEIN, NITRIC OXIDE, D-DIMER, MYELOPEROXIDASE, AND PLASMINOGEN ACTIVATOR INHIBITOR-1 IN THE PATHOGENESIS OF END STAGE RENAL DISEASE

M. Ben Hadj Tahar*, V. Bansal, M. Amour, E. Bontekoe, A. Abrenica, D. Hoppensteadt, A. Druck, J. Fareed

PROSPECTIVE COMPARISON OF CONE BEAM COMPUTED TOMOGRAPHY WITH ROUTINE OR SELECTIVE PREDISMISSAL COMPUTED TOMOGRAPHY ANGIOGRAPHY TO DETECT TECHNICAL PROBLEMS DURING FENESTRATED-BRANCHED ENDOVASCULAR AORTIC REPAIR

E. R. Tenorio*, B. Mendes, P. Ozbek, J. Kärkkäinen, T. Vrtiska, T. Macedo, P. Gloviczki, G. Oderich

MODIFIED CHIVA IN SURGICAL TREATMENT OF LOWER LIMB VARICOSE VEINS: TECHNIQUE AND RESULTS OF A SINGLE CENTER

A. Trani*, P. Benedetto, A. Esposito, D. Menna, F. Di Leo, A. Baiano, R. Garbetta, P. Cappiello

BIOLOGICAL AND PHARMACOLOGICAL PROFILING OF PENTOSAN POLYSULFATE (PPS) IN COMPARISON TO HEPARIN AND ITS RELATIVE NEUTRALIZATION BY PROTAMINE SULFATE

V. Venkitasubramony*, A. Polisky, F. Siddiqui, A. Kouta, J. Fareed, D. Hoppensteadt, O. Iqbal, A. Laddu, W. Jeske

End of congress

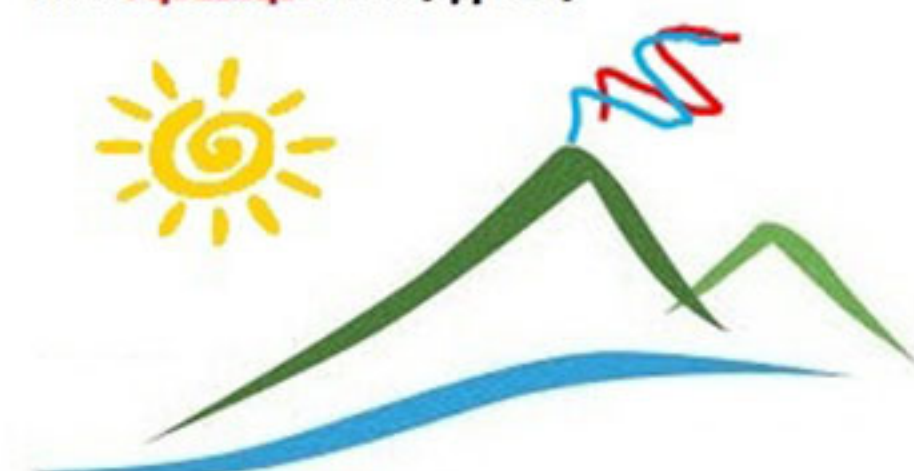

Closing remarks
P.L. Antignani (Italy)

Handover of Presidency
Y-Q Gu (China)
